

JIAHAO LIANG

Tel: (312)2785287 | Email: jiahaoliang2025@u.northwestern.edu | Chicago

EDUCATION BACKGROUND

◆ Northwestern University, Chicago, USA GPA: 3.9/4.0 09/2024

Degree: Master's in information system

◆ Northeastern University, Boston, USA 09/2019—12/2023

Degree: B.S. in Business Administration

Major: Business Administration and Management GPA: 3.78/4.0

Minor: Computer Science

Concentration: Management Information System

Core modules: *Object-Oriented Design, Data mining, Fundamentals of Computer Science 1&2, Database Design, Probability and Statistics, Data Visualization, Data Management in Enterprise, Macro/Microeconomics, Financial Accounting, Managerial Accounting, Supply Chain and Operation Management, Finance Management, Telecommunication (CCNA)*

◆ YK Pao School, Shanghai, China 09/2016—06/2019

Course: IB Diploma Programme Education

Major: Business, Computer Science, Physics GPA: 3.4/4.0

SKILLS

- ◆ Language: Mandarin (Native language), English (Fluent);
- ◆ Programing: MySQL| Oracle SQL| Java| Python| R| Golang| HTML| Racket| Hadoop Hive
- ◆ Software: ComfyUI| Stable Diffusion| Tableau| Adobe Photoshop| Adobe Premiere| Microsoft Office Suit

PROJECT EXPERIENCE

Database design final project: Database for player behavior storage and analysis 12/2021

- ◆ Designed the front-end application and database based on MySQL and Java
- ◆ Enabled the Final Fantasy XI players to store and analyze fishing records, such as bait costs, game time

Simple Image Processing Program 08/2021

- ◆ Created Image Processing and Enhancement Software with Java
- ◆ Made some simple image processing such as adding layers and filters

INTERNSHIP & WORK EXPERIENCES

Shanghai Yuanlu Jiajia Information Technology Co. Ltd 05/2024-now

Position: Technical Support and Maintenance

- ◆ Lead deployment and maintenance of AI image generation applications on server
- ◆ Design and optimize AI workflows within ComfyUI
- ◆ Conduct research and implement about AI technologies

Shanghai Kingnet Technology Co. Ltd 01/2022-06/2022

Position: Data technology platform developer

- ◆ Created dashboards on Grafana for company server usage
- ◆ Regulated and categorized players' chat data using NLP in a Java-based Maven project

Achievement: Completion of NLP-related model training and learned data warehouse fundamentals (HIVE)

Tableau Dashboard and Infographic Design
